Student Saxophones  
Professional Saxophones

R6000 – R8000  
R7500 – R9500

**REPAD/OVERHAUL:**

**NOVEMBER 2018**

Many factors control the cost of overhauling a saxophone: Age, condition, make and model, customizing etc... An inspection of the sax is essential in order to assess the extent of work needed, and to give an accurate quotation.

**COMPLETE STRIPPING OF INSTRUMENT:** Removal of all keys, worn pads, old corks and springs. Complete key work and tightening i.e.: swedging worn hinge tubes and

removal of any play between pillars. Hand burnishing methods that restore the action to a like-new performance level. For very old saxophones or badly worn keys, a new set of silver steel shafts may be fitted. Removal of all dents, re-straightening twisted bell and body, solder any loose or broken pillars and keys. All tone holes are checked and correctly leveled where necessary. A thorough cleaning and polishing of all keys, rods, pivot screws, tone holes, body surfaces and bore. Replace all pads, corks, felts and springs. Key work is carefully balanced, regulated and aligned. Instrument is then reassembled and lubricated.

MATERIALS: We use PRO premium deluxe pads created by **L. Pisoni**.

They are of a very HIGH QUALITY. Made with specially treated woven felt and very strong water-resistant brown leather and plastic reflector.

Blue tempered needle springs and fine quality imported felt and corks.
